AMERICAN FYRE DESIGNS™

Outdoor Products Collection

Homeowners all over the country have come to realize the allure of fire in their backyards. Fire brings warmth, glow and serenity, encouraging us to relax and unwind. An American Fyre Designs™ exterior fire feature will anchor your outdoor living space and turn your patio into an outdoor sanctuary inviting conversation that flows well into the night – even when there is chill in the air.

From Fireplaces perfect for cuddling up under the stars, to Firetables ideal for entertaining, to Firefalls that combine the charm of fire with running water, each product is expertly crafted from innovative glass fiber reinforced concrete (GFRC). GFRC derives its strength from a dosage of alkali-resistant glass fiber and acrylic polymer that results in durable concrete to withstand the outdoor elements. Modularly constructed as easy-to-assemble components, American Fyre Designs™ products fit easily into most backyards, making installation fast and simple.

American Fyre Designs™ products are available in a variety of styles, colors and textures to complement any décor. Warm your outdoor living area with American Fyre Designs™.

Fireplaces

Recessed Option

Fireplaces may be ordered with recessed hearth and/or body to accommodate field cladding in tile, stone or other veneer. These recessed vertical surfaces are unfinished.

Pictured above: Grand Cordova Fireplace (882-35-H-CB-xxC) in Café Blanco Finish with Charred Oak log set (CHDG45-24)

Create an enticing outdoor setting with the American Fyre Designs™ Outdoor Fireplaces. Expertly handcrafted from innovative glass fiber reinforced concrete (GFRC), a variety of styles, finishes and options are available to find the right fireplace for your setting.

The Grand Series Fireplaces incorporate wall extension panels to create a more impressive design while keeping the same style and look of the fireplace. Wall extension panels expand upon the body of the Fireplace to create many new decorating opportunities while also providing a beautiful separation to the world behind the fireplace.

Most fireplaces are available in vent-free versions which permit you to locate your fireplace in a lanai or other covered outdoor area.

Feature Highlights

- Modularly constructed as easy-to-assemble components
- Exterior may be recessed to accommodate field cladding in tile, stone or other veneer
- Most fireplaces available as Vented or Vent-Free
- All Vent-Free fireplaces are blocked at the top and throat of the firebox
- All Fireplaces include herringbone firebox liners

Pictured above: 40" Marseille Fire Bowl (752-CB-11-V6xC) in Café Blanco Finish with Lava Coals (LFC-10)

The Marseille Fire Bowl offers a simple interpretation of the Fire Bowl concept, with a reduced profile and wider opening to accommodate a larger amount of fire media. Handcrafted from glass fiber reinforced concrete (GFRC), the Marseille Fire Bowls come in a variety of different colors and textures. Fuel options include Natural Gas or Propane.

Three sizes are also available with a water spout to combine running water with dancing flames (plumbing must be locally supplied). Compatible with the Pedestals (see page 25) allowing for additional decorating options.

Feature Highlights

- Handcrafted from innovative Glass Fiber Reinforced Concrete (GFRC)
- Low profile, modern design
- 16" stainless steel burner (32", 40" & 48" Models)
- Available with water spout (32", 40" & 48" Models)
- Optional 110V All Weather Electronic Ignition System (AWEIS) (40" & 48" Models)
- Available for Natural Gas or Propane
- Compatible with Pedestals (see pg. 25) and Tank End Tables (see pg. 42)

Fire Urns

Pictured Above: Amphora Fire Urn (660-SD-11-V2xC) in Sedona Finish with Lava Granules (2-LFC-10)

One of our most popular pieces, the Amphora Fire Urn is reminiscent of the Grecian urns of old but features bursts of fire out the top. Several of these can be displayed down a path or placed near a fireplace or other outdoor feature to add sophisticated elegance to your outdoor area. Made from glass fiber reinforced concrete (GFRC), these urns come in a variety of different colors and textures. Fuel options include Natural Gas or self-contained Propane tank (Amphora & Piage Fire Urns are made with a removable door to house a 5 gallon Propane tank).

Fire Pits

All Weather Electronic
Ignition System

NEW

New All Weather Electronic Ignition System (AWEIS) includes Hot Surface Ignition, on/off remote control and was developed to operate in harsh weather conditions. This is the most reliable ignition system in the industry with a maximum gas output of 140,000 BTU's per hour.

Pictured above: Contractor's Model Fire Pit (685-CB-11-V6xC) in Café Blanco Finish w/stone veneer

Our artistically-designed fire pits add style and design to the classic outdoor fire pit. The Chiseled Fire Pit has a rough hewn concrete exterior and smooth rim around the top. The El Dorado Fire Pit has a smooth concrete exterior and smooth rim around the top. The Contractor's Model comes as a blank slate for you to customize and design your way by adding your own stone, tile or other veneer. Made from glass fiber reinforced concrete (GFRC), these fire pits come in a variety of different colors. Fuel options include Natural Gas or Propane.

High configuration recommended for higher stack or flame

Low configuration recommended for lower stack or flame

Protective Covers

GFRF Covers

Manufactured out of the same Glass Fiber Reinforced Concrete (GFRF), these protective covers are designed to fit over the firetable opening protecting the burner assembly against wind and rain. They also provide additional table surface when the burner is not in use.

Fabric Covers

Manufactured with a heavy duty, multi-layer PVC exterior, these covers are custom fit for selected Firetables, Fire Bowls, Fire Urns and the Nest Lantern. The black PVC material has been tested and proven for color-fastness.
